

# SIMPLE, FAST AND SECURE

## ELECTRONIC BILL OF LADING

### SECURE

Complete security thanks to blockchain technology: verified, forgery-proof and traceable at any time.

### CHEAP

No courier fees, no printer or fax machine necessary, all digital

### FAST

Quick submission, accelerated process and payment handling

### EASY

Simple and intuitive to use, like an email inbox

### SUSTAINABLE

No mountains of paperwork, lower CO<sub>2</sub> emissions, greener shipping

### ACCESSIBLE

Available anytime anywhere in the world – 24/7

### ORGANIZED

No more losing your documents: round-the-clock tracking means you always have an overview of everything

### HEALTH

Contactless processing, because the health of all stakeholders is our top priority

### ALREADY IN USE

Many users are already on board. You can benefit from our digital service too!

## HOW IT WORKS

1

Register with your own account at WAVE BL and follow the provider's simple instructions to complete the installation.

2

As soon as your account is activated, exchange business unit cards with all the relevant parties. The system only works if all of your partners are also registered!

3

The system not only provides a digital Bill of Lading – you can also digitise other relevant documents such as trade invoices, packing lists and Certificates of Inspection could be added to electronic shipping.

For more Information, Videos and FAQ visit [www.wavebl.com](http://www.wavebl.com)
