Export - MPCFI-Filing United Arab Emirates

20.02.2026

Dear valued Customers,

as of April 1st, 2026, MPCFI-Filing (Maritime Pre-Load Cargo Information Program) by the National Advance Information Center (NAIC) will be mandatory in the United Arab Emirates (UAE). All shipment-related data* is required for goods being loaded into or through the UAE. Detailed information can be found on the [NAIC](#) website.

Each party involved in the shipment must file the B/L they issue. If SACO issues a HB/L showing real shipper and real consignee for you, no further filing is required on your end. If you issue your own HB/L, you will need to file it accordingly. SACO requires your MPCFI-ID for these shipments to link your filing. To get a MPCFI-ID you need to [register](#) your company with the NAIC. The filings can be performed through an authorized [service provider](#) only.

We recommend that you register as soon as possible and contact a service provider for the set up.

The SACO MPCFI-ID is: SCGOL00

The final amount of our MPCFI Filing Fee is not yet determined.

If you have any further questions, please get in contact with your local SACO Shipping Team.
