## Export - MPCI-Filing United Arab Emirates Reminder

Dear valued Customers,

in accordance with our earlier announcement (20.02.2026) we would like to remind you that as of June 30th, 2026, MPCI-Filing (Maritime Pre-Load Cargo Information Program) by the National Advance Information Center (NAIC) will be mandatory in the United Arab Emirates (UAE). All shipment-related data\* (see page 2) is required for goods being loaded into or through the UAE. Detailed information can be found on the [NAIC](#) website.

Each party involved in the shipment must file the B/L they issue. If SACO issues a HB/L showing real shipper and real consignee for you, no further filing is required on your end. If you issue your own HB/L, you will need to file it accordingly. SACO requires your MPCI-ID for these shipments to link your filing with the SACO HB/L. To get a MPCI-ID you need to [resister](#) your company with the NAIC. The filings can be performed through an authorized [service provider](#) only.

We recommend that you register as soon as possible and contact a service provider for the set up.

# customer advisory

02.06.2026

For all shipments that will be shipped on or after June 15, 2026, we require the MPCID filing data from you. We will not charge the MPCID Filing Admin Fee until June 30, 2026.

The SACO MPCID-ID is: SCGOL00

Our MPCID Filing Admin Fee is EUR 27,50 per B/L

**\*Shipment-related data:**

- Complete physical shipper address: name, street and house number, postal code, city, and country
- Complete physical consignee address: name, street and house number, postal code, city, and country (no P.O. Box)
- Number of packages and weight
- English description of goods and markings
- All HS codes (8-digit)
- Consignee VAT ID, or TIN number for private individuals

For further information, please contact your responsible SACO Shipping team.
