Export LCL – Kuwait and Qatar Enjoy no filing

Dear Valued Customers,

As we have already informed you in previous notices, effective **June 30, 2026**, a [MPCI filing](#) will be required for all shipments destined for, or transiting through, the United Arab Emirates. With SACO, however, you can avoid this requirement for shipments to **Kuwait, Qatar, and Oman**.

Starting with the first sailing in July, we are pleased to offer new **direct LCL services** to **Kuwait** and **Hamad**, in addition to our existing direct service to **Sohar, Oman**. The benefits are clear:

Kuwait & Hamad:

- **No MPCI filing required – no filing fee**
- **More competitive rates**
- **Faster transit times**
- **No transshipment in Dubai – reduced handling**

We invite you to give our services a try. Our **Middle East Team** will be happy to assist you with any questions you may have.

Yours

SACO Shipping GmbH
