EXPORT MALTA AND GOZO

We have improved our weekly service to Malta to a transit time of 10 days and have appointed a new partner, offering your clients delivery of goods 5 days a week. Together with Eurofreight Services Ltd and their long lasting experience on the Maltese market we feel confident to offer a very professional service. On-carriage on Malta and its sister island Gozo can be effected without any problem.

Together with our SACO Shipping offices in Budapest, Vienna, Prague, Bratislava and Basel, we can offer pre-carriage throughout Europe, as well as the complete service packet of LCL, FCL and airfreight.

For European goods with customs clearance, the consignee first needs a T2L document when the goods are worth € 10.000 or more. For consignments with a value below € 10.000 it is only necessary to make a note (T2L) on the transport document together with the details of the shippers customs office, responsible for the authorization of the goods as stated in the commercial invoice or other transport documents.

Should you have any questions related to our services and rates, please do not hesitate to contact us.
